Actively building AI agents, reusable AI skills, and automation platforms for enterprise and client-focused AI solutions.
Senior AI Automation Engineer with 8+ years of experience in automation, specializing in AI-powered systems, AI agents, and intelligent workflows. Experienced in combining traditional automation with LLM technologies including Claude CLI, Codex CLI, OpenClaw, and prompt-driven automation.
Currently building AI solutions such as Text-to-Test Automation Framework, AlgoBot, and AI Blogging Platform while leading enterprise automation initiatives for NASDAQ-NSEIT. Skilled in AI agent development, workflow automation, prompt engineering, and self-healing automation systems.

Work History

2022-11 - Current

Senior QA Automation Engineer

National Stock Exchange IT, Pune, India

AI Innovations (Current role)

- **AI Text-to-Test Framework:** Built AI-powered framework converting plain text into automation scripts with self-healing and LLM-driven automation.
- **AlgoBot Automation System:** Developed AI-driven assistant to automate engineering workflows with intelligent decision-making.
- **AI Blogging Platform:** Built AI-powered content generation platform with automated publishing workflows.
- **AI Resume Builder:** Developed AI-based resume optimization and automated resume generation system.
- **AI Skills (Ongoing):** Developing reusable AI skills for brainstorming, automation planning, project design, and agent workflows.

Skills

AI Skill Creation, Claude CLI, Codex CLI, Openclaw, Prompt Engineering, AI Agent Development

AI Innovation in Automation, Multi-Agent System, AI Automation Systems, AI Tool Integration, Self-Healing Automation

Selenium, Java, Javascript, Node.jsAI-Driven Test Automation

GitHub, GitLab, Bitbucket, CI/CD, Sonar, qTest, Jira, Confluence, Jenkins

- Led QA process improvements for NSEIT's NASDAQ partnership; built Java Selenium framework using qTest, improving UI automation coverage and reducing testing time.
- Established team milestones and ensured timely delivery.
- Implemented continuous testing through CI/CD automation.
- Detected critical password exposure bug during automation cycle; received **Bravo Award of the Month**.
- Improved overall automation stability and efficiency.

2021-11 - 2022-11

Seniors Technical Consultant

Finastra, Pune , Maharashtra

- Designed automation strategy
- Implemented automation planning frameworks
- Worked on international and domestic payments
- Created automation test cases for payment systems
- Built automation validation tools
- Worked closely with client teams and stakeholders

2020-08 - 2021-11

Quality Assurance Automation Test Engineer

FIS Global Solutions, Pune, MAHARASHTRA

- Created API automation scripts using Groovy
- Worked on capital market domain
- Introduced automation methodology improvements
- Conducted automation training sessions
- Implemented automation quality improvements

2018-01 - 2020-08

Programmer Analyst

Cognizant Technologies Solutions, Pune, Maharashtra

- Developed automation frameworks
- Worked on Selenium and WebDriverIO
- Built internal automation tools
- Implemented UI automation frameworks
- Supported UAT automation

Education

2018-08 **B.Tech: Engineering**

Sinhgad Institute of Technology - Pune

2013-04 **High School Diploma**

Y C College of Science - Karad

AI Focus Area

- AI Agent Development
- Multi-Agent Systems
- AI Skill Development
- LLM Workflow Automation
- AI Automation Platforms
